Private house standing in 7.2 acres of land with agricultural buildings, concrete yard and land demised to grass.

Separate nearby filed of approximately 4.2 acres.

Residential Development comprising approximately 6 homes.

Other (Please Specify)	NULL

**5c. Please provide further details of your proposal, including details on number of houses and proposed floorspace of commercial buildings etc.**

There is potential for new build properties on spare grass land at the property.  
 There is also potential for conversion of redundant farm barn space to residential property. Estimation is approximately 6 properties but would be open and appreciative to guidance as to more or less as would be preferred if development would be considered.  
 Part of a plan for farm diversification as the property used to be a pig breeding unit and the barns and land are largely underutilised.  
 The development would allow family members (son) to live additionally on the site and also potentially parents in later years if desired.  
 The development could alternatively be used for holiday accommodation.  
 At this stage no advice or opinion has been taken but the property is being put forward for possible development as advised to do so.

One area is 'infill' between properties. one area is development of redundant barn space, another area is development opposite and adjoining existing residential housing.

The land adjoins public road for access and the availability of services etc.

**5d. Please describe any benefits to the Local Area that the development of the site could provide.**

If residential development occurs it provides new housing.

If holiday accommodation is developed it provides new business opportunities and employment opportunities accordingly.
