Dear Sirs

### Greater Norwich Local Plan Regulation 18 Consultation Site Submission

I enclose herewith a site submission for consideration. I also wish to make representations regarding Ringland Village that has been declassified as a village and does not benefit from a settlement boundary to meet the local need.

Ringland remains excluded and declassified as a village and in consequence I question whether (in this regard) the plan is sound i.e. justified, effective and consistent with National Policy.

Ringland is a medieval village and the negative consequences of declassification includes reduction of Local Accountability through the Parish Council, reduced opportunities of Grant Funding for local amenities including for example the village Green, possible future reduction in Public Services, and the total withdrawal of any housing opportunities necessary to meet local needs.

I contend that Policy 16 of the Joint core strategy (Other Villages) remains relevant to Ringland and that it should be reclassified in this category, and a settlement boundary incorporated for the following reasons.

1) 6.61 Of the Joint core strategy stated " The 'Other Villages' have been defined as having a basic level of services/facilities. This is generally a primary school and village hall, though regard will be had to the presence of a range of other services. These will normally be available within the defined settlement, though regard will also be had to their availability in other nearby settlements where there is good access particularly by foot or cycle".

Ringland has a Village Hall and thriving Pub, and well supported 13th Century Church. Schooling from Primary to High School is available within 1 mile in Taverham and easily accessible by bicycle or foot, or school bus.

A diverse range of Shops, a Library and a Doctor's Surgery are similarly available from Taverham 1 mile away, as is public transport to and from Norwich

"Regard" to the criteria of availability of such facilities in nearby settlements is stated in policy 6.61 and there is considerable precedent for acceptance of this criteria in numerous villages since classified as "Villages" or "Other Villages".

2) Limited infill or small-scale development is necessary to deliver the wishes and perceived rights of the younger members of families resident in Ringland over several generations, to continue to reside in Ringland.

3) An Independent Housing needs Survey was conducted in October 2006 by the Norfolk Rural community Council which concluded:

"There are currently a minimum of 5 households with local connection to Ringland in need of Housing."

The survey also stated "at least 5 family members have moved away from households in Ringland due to difficulties in finding accommodation."

The position was not addressed and the scale of need has increased.

Re categorising Ringland as a village as its status justifies will enable such issues to and enable due account of local housing needs.

Increased traffic volume has been stated as the prime reason for the constraint on local housing and this will in any event is to be dramatically reduced from existing levels by any likely route of the NDR and independent surveys anticipate that traffic over Ringland bridge and the local toad network will reduce from 5700 per day to 400 per day.

Yours Faithfully

Terry Davies
