

Greater Norwich Local Plan: Regulation 18 Consultation General Response Form

Thank you for responding to the Regulation 18 consultation on the emerging Greater Norwich Local Plan. If you have any questions relating to the consultation please contact the Greater Norwich Local Plan team on 01603 306603 or email gnlp@norfolk.gov.uk

It is easier to respond online at www.gnlp.org.uk . If you cannot do this, please use this form to respond to the:

- Growth Options document – there are 66 questions covering the Vision and Objectives, Strategy and Topic Policies. There is no need to answer all the questions – just respond to those you are interested in;
- Site Proposals document for commenting on submitted sites and development boundaries (you'll need the Site Submission form to submit additional sites);
- Interim Sustainability Appraisal;
- Evidence Base.

All documents are available from www.gnlp.org.uk

Hard copies of the documents are available at consultation "Deposit Points" at:

- County Hall, Martineau Lane, Norwich (main reception);
- City Hall, St Peters Street, Norwich (2nd floor reception);
- Broadland District Council, Thorpe Road, Thorpe St Andrew (main reception);
- South Norfolk Council, Cygnet Court, Long Stratton (main reception).

Submitting your Response Form

Responses should be made electronically on the webform which is available at www.gnlp.org.uk . Alternatively this response form can be downloaded and submitted by email to gnlp@norfolk.gov.uk

I wish to lodge an objection to the following Site Proposals, as referred to in the HELAA document:

① GNLPO486 p. 227

This is prime agricultural land, it borders ancient woodland, and access is poor. Neighbouring Poigland and Franklyn East are saturated with new development which has had detrimental effects on roads, lanes, schools and GP surgeries are over burdened.

② GNLPO491 p. 229

Again this is prime agricultural land, access is very poor and feeds on to a culvert lane (as above) which is too narrow for the congested busy 2 way traffic. Verges are being eroded and damaged. It puts unnecessary

pressure on local wildlife, fauna & flora.

③ GNLP 0197 p. 1043

This is on prime agricultural farm land, the local road network is unsuitable, and as the site is on high ground, the visual impact to the landscape would be detrimental.

④ GNLP 0202 p. 1045.

Again this is prime agricultural land, as stated in your HELAA document - the local road network is unsuitable and visual impact on the landscape would be detrimental.

⑤ GNLP 0494 p. 1047

This site has not got suitable access, and it would impact detrimentally on neighbouring wildlife and woodland sites.
Please add additional sheets if necessary

⑥ GNCP 0524 p. 1049.

6.56 hectares is a large site and you do not propose how many residential units are proposed: this causes concern.

The local road network is unsuitable, as stated in your HELAA report. I believe this development would have a detrimental impact on the townscape, local services and heritage and also open space.

⑦ GASLP 0169 p. 885
for the above reasons.

General Comments.

The HELAA traffic light system does not seem to correlate with where a site is considered suitable / appropriate or not.

I would like to see much more development of brown field sites in Norwich or existing settlements, where these sites exist.

Each new residential unit generally means 2 more cars - and our small lanes and county roads are not designed for heavy 2 way traffic vehicle use. The detrimental effect of excessive vehicles can be seen all over the County of Norfolk. Even the county buses are too large for the roads they travel on.
